

# Time for Love

Silent Circle

All we need is some time for love,  
All we need is some time...

People have explored now  
Dark side of the silver moon,  
Ice is found in Africa.  
Richmen, you have bored  
Just to send the satellite -  
Are you satisfied?  
Me, I've got a car,  
It's only worth a have to me  
But I'm full of fantasy  
Will you come along, take my hand and you will see  
All alone, you and me, we are free

CHORUS:

Time for love, we're dreaming the night away  
Time for love, let's do it again  
Time for love, we're kissing our tears away  
More and more, it's time  
(2x)

Dream I'm in your arms,  
I feel the fire in my heart,  
Forever you belong to me  
Let's forget the sorrow talking all the day  
All alone, you and me, we are free

chorus

All we need is some time for love,  
All we need is some time...

(Let's forget the sorrow)

People have explored now  
Dark side of the silver moon

All we need is some time for love,  
All we need is some time...

All we need (All we need)  
Is some time for love (Is some time for love)  
Time for love, let's do it again  
(repeats till fadeaway)
