

God VS I

Silent Drive

The weight of the world is falling on your shoulders
And I wish that I could relieve it, I so wish that I could relieve it
But I can't figure out how
I can't figure out how
I'm trying
I'm trying

I promise someday that I'll take you away from this pain
We'll fly above this place where nothing can touch us

Why can't these doctors fix you?
Why can't I change god's mind?
I swear to god if god is real I will find him and I'll win this round
I swear to god that I'll win this round
I promise
I promise

I promise someday that I'll take you away from this pain
We'll fly above this place where nothing can touch us

For you I'd take on the sky
All the gods vs I

Let the fucking battle begin

I won't stop until you're all dead
I won't stop until you're all dead
So I fight and I smash, break your powers and win
Now look at who's power is dead
Take a look at your god now
Look at him

I didn't want this to happen but I had to save these lives
Heaven could not deliver and I was struggling to bend time
