

## Goodbye My Ghost

Silent Force

I stand at the edge of myself and my health  
The gravity of the situation shows itself  
I can never stay focused the voice deep inside  
It's screaming to me  
I have not failed to run and hide

Goodbye to you, goodbye my ghost  
(Goodbye to you my ghost)  
Goodbye to you, goodbye my ghost  
(Goodbye to you my ghost)

Have you every felt crazy  
Like someone you didn't know?

Now that you're questioning yourself down to the bones  
Overwhelmed by the life we lead and demons we have shown

As I sit and stare, it's a statement of my mind  
Release me, as I close my eyes  
I'm drifting through the time  
I can see you breath as I can feel your death

The memoery of you will fade away  
I hope forever
