

## Offworlder

### Silent Planet

There's no time left to waste now that you're finally awake  
You took a lifetime to deprogram so let's cut to the chase  
I'd say there's less than seven seconds till the bastards breach  
the door  
Just remember nothing's real, they can't hurt you anymore

Run

Bullets ricochet, under the gun, reaching for the blade  
Passing through the walls, bring the steel, silencing them all

That was just reconnaissance the Calvary is next  
Can you hear them shake the stairwell, weapons climbing up the  
steps?  
Until you cut the transmission the madness never stops  
And there will be no end of them until the signal drops

Plummeting to pavement just before the room explodes...  
Hordes of stacking bodies, fall broken by empty souls

Sent from high above to tear the curtain down

Bullets ricochet, under the gun, reaching for the blade  
Passing through the walls, bring the steel, silencing them all  
Beneath a simulated sun, hypnotized, sub-audible hum  
Programmed to devour the One  
I'll be the rage in your lungs until the network is undone

It gazes on, full-scale panic panopticon  
Light the match, lay to waste  
The isolation we create
