

Boogeyman

Silent Theory

What if I told you I'm the darkness in your dreams?
What if I told you I'm the thing behind the scenes?
What if I told you I'm the secret in your heart?
What if I told you I'm the fight that lights the spark?

What if I told you I was your boogeyman had you looked under your bed?
Don't you look under your bed
Come along and take my hand because I am your boogeyman

What if I told you I'm the needle in your skin? What if I told you I'm the nightmare from within?
What if you turned on me to find I'm not around?
What if you slipped into the night without a sound?

What if I told you I was your boogeyman had you looked under your bed?
Don't you look under your bed
Come along and take my hand because I am your boogeyman

Ha ha ha ha

What if I told you I'm the needle in your skin? What if I told you I'm the nightmare from within!

What if I told you I was your boogeyman had you looked under your bed?
Don't you look under your bed
Come along and take my hand because I am your boogeyman!
Your boogeyman!
