

Let's Not and Say We Did

Silver Jews

Let's go hunting blackbirds, let's throw snowballs from the bridge
The fireplace burns backwards, let's not and say we did
There's a trapdoor in the country where we can disappear
These giant evergreens are a promise redeemed
Let's walk down the glassy top of a frozen pasture stream
Our minds can dream like soda machines
And that's exactly what we did

Let's ride down the ridge to the military bridge
You can't be against forever, let's not and say we did
There's a party in the country, where we can disappear
Dig if you will, a picture of you girl
Finding the fiercest way to live
We can ride all day in a one horse open sleigh
And that's exactly what we did
And that's exactly what we did
