

## Slave

Silverchair

Lived too long now you've come to take me  
To a place where I can die  
Lost my soul, lost my confidence in me  
Can't be something but I'll try

Lived too long and waited to just drown  
In my self pity I keep falling down

Want to be your soldier  
Want to be your slave  
I have no pride in myself

Only book that I own is called 'how to lose'  
Pick a chapter, I know them all, just choose

Lived too long and waited to find  
A place where I can die  
Lost my soul, lost my confidence in me  
Give me something but I'll try

Want to be your soldier  
Want to be your slave  
I have no pride in myself  
That's how I behave
