

All On Me

Silverstein

Would you wait up for me
If I call in a minute?
It's hard to be here
This time zone's a killer
And it's all on me
You caught me having a moment

I'll let you know when it's over
I'll let you know when it's over

Lost your voice on the line
Giving me too much credit
Must be out of my mind
Love leaves if you let it

So let me know if it's over
So let me know if it's over

I know that I live in the letdowns
Did I already fade to the background?
Cause I've been on the run for some time now

So let me know if it's over
So let me know if it's over

Got your note in the air
I replied on the pavement
I'm afraid to find out
If you mean what you're saying

I just want to come home
Is it still my apartment?
On that red eye flight
Move through the darkness

So let me know if it's over
So let me know if it's over
So let me know if it's over
So let me know if it's over
