

# Burn It Down

Silverstein

In all my dreams you're screaming  
Burn it down

I woke up in a dark place  
I try to see straight, but it's all a blur  
I just wanna see your face  
But I'm shivering looking for a kerosene cure

I had my fortune read  
By a fire lit by the dead  
I saw the start of the end  
And it whispered

Let's burn it down, down  
There's no way out  
I can read you like a matchbook  
Speeding and we can't slow down  
Cause I need this now  
In all my dreams you're screaming  
Burn it down  
Burn it down

I'm sick of being deceived  
With a blindfold on while I'm looking for a saviour  
I try to stop the bleeding  
But you cut so deep and I feel like a failure

I had my fortune read  
And I know it's slipping away again  
I saw the start of the end  
And it whispered

Let's burn it down, down  
There's no way out  
I can read you like a matchbook  
Speeding and we can't slow down  
Cause I need this now  
In all my dreams you're screaming  
Burn it down, down, down, down  
In all my dreams you're screaming  
Burn it down, down, down, down  
In all my dreams you're screaming  
In all my dreams you're screaming  
Burn it down

No rest for the weak with a voice this loud  
Your mistake was the hope I found  
I lit the match in the middle of the crowd  
Watch it explode, let it fall to the ground

I lit the match in the middle of the crowd  
Watch it explode, let it fall to the ground  
I lit the match in the middle of the crowd  
Watch it explode, let it fall to the ground

In all my dreams you're screaming  
Burn it down, down

There's no way out  
I can read you like a matchbook  
Speeding and we can't slow down  
Cause I need this now  
In all my dreams you're screaming  
Burn it down, down, down, down  
In all my dreams you're screaming  
Burn it down, down, down, down  
In all my dreams you're screaming  
In all my dreams you're screaming  
Burn it down
