

Cold Blood

Silverstein

Are we past the point of feeling?
Detached from tragedy
What used to leave us reeling
We barely even see
Nerve damage
Everything's going numb
I should panic
But all I feel is pins and needles

The room is burning I don't even notice
The smoke is filling my lungs and I'm just hoping
For something
Anything
Remind me why I'm breathing
When did we get so
Cold blooded

Wake up every morning
To the sound of my city
If the world didn't fall apart
I'm not sure if we'd even be here
And somehow I feel far from home
Even underneath my own sheets
Full of blood, ice cold, I don't know
I don't know how I'm even breathing
Nerve damage
The connection is breaking up
I should panic
Cause all I feel is pins and needles

The room is burning I don't even notice
The smoke is filling my lungs and I'm just hoping
For something
Anything
Remind me why I'm breathing
When did we get so
Cold blooded

And I know enough to know
We might not make it home
Before it all takes hold

The room is burning I don't even notice
The smoke is filling my lungs and I'm just hoping
For something
Anything
Remind me why I'm breathing
When did we get so
Cold blooded
When did we get so
When did we get so
Cold blooded
