

# Death Hold

Silverstein

I can fantasize I'm not dead inside  
Taking razor blades and tracing them along the lines  
You won't sympathize, I'm not scared to die  
I would set myself on fire if that's what you like

Take this gun from me, I'm in and out of consciousness  
Put it to my head as I watch you undress

You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Two hands around my throat  
You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Don't stop until I choke

On the darkest night, racing in my mind  
Grip the wheel, I go faster, knuckles turning white  
Headlights passing by, still not scared to die  
All I have to do is turn it to the other side

Take this gun from me, I'm in and out of consciousness  
Put it to my head, but I still won't confess

You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Two hands around my throat  
You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Don't stop until I choke

But I'll stay here, a silent rush  
Death by a thousand cuts  
I still can't get enough

You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Two hands around my throat  
You got me in a death hold, death hold  
Never gonna let go, let go  
Squeeze until you break my bones  
Don't stop until I choke

Take this gun from me, I'm in and out of consciousness  
You got me in a death hold  
Put it to my head, but I still won't confess  
Never gonna let go, let go  
Take this gun from me, I'm in and out of consciousness  
You got me in a death hold, death hold  
Put it to my head, you choose what happens next
