

Fuck The Border

Silverstein

A friend of mine dropped me a line,
I got no money, got no job."
it said, "man I gotta run to the USA.
before she f**king came?
She skipped out of Mexico to stay alive.
but what did you do to help her
You've got a problem with her living here,
I stand not by my country,
What did the country do?
What did the people do?
Free movement for all.
but the people of the whole f**king world.
No fences, no borders.
f**k the border. It's about f**king time
It's our culture and consumption
to treat people with respect.
its knee-jerk hordes.
that makes her life unbearable.
f**k this country; its angry eyes,
Legal or illegal, watch her f**king go.
She'll take what's hers.
