

Don't Know Yet

Silversun Pickups

Ooh, I need a fresh start now, reboot the machine
Ooh, I'm a ghost up in the clouds now, so frightening
Ooh, face down in a fountain, soaking wet
Ooh, my body's growing into my silhouette

I can see now you wanted to play
Hurry back, I think they're closing the gate
But I fear it's just a moment too late

Don't know what you're gunning for
Should I hit the deck, fall through the floor
Don't know what you're thinking of
Do I chip away or keep defenses up
Don't make a sound
If it gets too loud, will you hear me come around?

Ooh, fade into the sounds that we can't avoid
Ooh, I'm addicted to the soundtrack, I need the noise

Are you screaming from the other side?
Believe me, I know what it's like
To lay awake all through the night

Don't know what you're gunning for
Should I hit the deck, fall through the floor
Don't know what you're thinking of
Do I chip away or keep defenses up
Don't make a sound
If it gets too loud, will you hear me come around?

Don't know what you're gunning for
Should I hit the deck, fall through the floor
Don't know what you're thinking of
Do I chip away or keep defenses up
Don't make a sound
If it gets too loud, will you hear me come around?

Don't know what you're gunning for
Should I hit the deck, fall through the floor
(What you're gunning for)
Don't know what you're thinking of
Do I chip away or keep defenses up
(I'll keep defenses up)
Don't make a sound
If it gets too loud, will you hear me come around?
(Gets too loud, oh, it gets too loud)

Don't know what you're gunning for
Should I hit the deck, fall through the floor
(Fall through the floor)
Don't know what you're thinking of
Do I chip away or keep defenses up
(I'll keep defenses up)
Don't make a sound
If it gets too loud, will you hear me come around?
(Hear me come around, you hear me come around)

I can see now you wanted to play
Hurry back, I think they're closing the gate
But I fear it's just a moment too late
