

# Freakazoid

## Silversun Pickups

And if you're feeling paranoid  
What the hell is that mean?  
You'd rather be alone  
Anonymously  
If I'm such a freakazoid  
Unable to breathe, breathe, breathe  
Do we move along?  
Or wait and see

I believe you're trying  
To keep us all from dying

Can I pull you home  
Away from the middle of the road?  
Another safety zone  
Another way to know home, home  
And this freakazoid  
Who needs a little relief, relief, relief  
Who knows you're not alone  
And wants you to believe

(I believe you're trying)  
(To keep us all from dying)  
Keep us all from dying  
(I believe you're crying)  
(To keep this whole thing flying)  
The whole thing comes out flying  
(Oh me, oh my)  
(It seems you might be lying)  
Keeping us from dying  
(I'll keep on fighting)  
(As long as you keep trying)  
As long as you keep trying

(I believe you're trying)  
(To keep us all from dying)  
To keep us all from dying  
(I believe you're crying)  
(To keep this whole thing flying)  
The whole thing comes out flying  
(Oh me, oh my)  
(It seems you might be lying)  
Keeping us from dying  
(I'll keep on fighting)  
(As long as you keep trying)  
As long as you keep trying

Once again with feeling  
Once again with a little more love  
Once again I believe, believe, believe  
That you're paranoid  
And I'm a freakazoid  
So let's wait and see

(I believe you're trying)  
(To keep us all from dying)  
Keep us all from dying

(I believe you're crying)  
(To keep this whole thing flying)  
The whole thing comes out flying  
(Oh me, oh my)  
(It seems you might be lying)  
Keep us all from dying  
(I'll keep on fighting)  
(As long as you keep trying)  
As long as you keep trying

(I believe you're trying)  
(To keep us all from dying)  
Keep us all from dying  
(I believe you're crying)  
(To keep this whole thing flying)  
The whole thing comes out flying  
(Oh me, oh my)  
(It seems you might be lying)  
Keep us all from dying  
(I'll keep on fighting)  
(As long as you keep trying)  
As long as you keep trying
