

## Hidden Moon

Silversun Pickups

This sudden light  
Just enough to wet my appetite  
Where did you go  
Somewhere out there I can feel the glow

Hidden moon  
Stick around or it'll be your doom  
Hidden moon  
Tell me why you need to leave so soon

Are you behind  
All the rocket ships and satellites  
I'll make you mine  
Such a lovely way to pass the time

I'll steal the moon  
Give it back if it'll change your tune  
Hidden moon  
Tell me why you seem to be confused

You better find another place to hide  
I'm gonna find you cause I've got all night  
See the shadows moving so lifelike  
When you find another way to shine

Hidden moon  
Stick around or it'll be your doom  
Hidden moon  
Tell me why you need to leave so soon

You better find another place to hide  
I'm gonna find you cause I've got all night  
See the shadows moving so lifelike  
When you find another way to shine
