

Interrobang

Silversun Pickups

Breathe deeper than the bluest sea
Easy, take in only what you need
It's getting cold out there
So keep warm
Remain aware
Of shifting storms
Don't mean to stare
My idle moves at glacial speeds
Oh

See, everything is made of wire
Oh
Leave lightning rods to spark desire
This electricity
Is life blood
Move in me
Flow and flood
Ecstasy
Feel electrons multiply

And I don't care about these inner visions
Take away these shaky tenterhooks
Cradle, grave, and every sun-soaked afternoon

And I don't care about these inner visions
Take away these shaky tenterhooks
Cradle, grave, and every sun-soaked afternoon

Restart it
Reset
Wait
Ah-ah-ah
Restart it
Wait
Wait

And I don't care about these inner visions
Take away these shaky tenterhooks
Cradle, grave, and every sun-soaked afternoon

And I don't care about these inner visions
Take away these shaky tenterhooks
Cradle, grave, and every sun-soaked afternoon
