

# It Doesn't Matter Why

Silversun Pickups

You hear us come and go  
We know  
You wonder if we're not alone  
We're alone  
You think about us all the time  
Don't  
Because it doesn't matter why we're known  
We're just known

We're just... known

You wanna read our minds  
We know  
Is it better on the other side  
No  
Will it help you sleep at night  
It won't  
And it doesn't matter why we're known  
We're just known

It doesn't matter why we're known  
It doesn't matter why we're known  
It doesn't matter why we're known  
We're just known

Should you stay or go  
Go  
Feeling like you're on your own  
Unknown  
Will we ever leave you alone  
No  
And it doesn't matter why we're known  
We're just known

It doesn't matter why we're known  
It doesn't matter why we're known  
It doesn't matter why we're known  
We're just known

It doesn't matter why we're known  
It doesn't matter why we're known  
It doesn't matter why we're known  
We're just known

And if it all goes right, you'll see in our eyes  
We've finally made it out alive  
Will you wait for a sign  
It's time to have some peace of mind  
Wait

You're on your own and in your eyes  
You finally see we've all gone blind  
Have we all gone blind

It doesn't matter why we're known  
It doesn't matter why we're known  
It doesn't matter why we're known

We're just known

It doesn't matter why we're known

It doesn't matter why we're known

It doesn't matter why we're known

We're just known
