Silversun Pickups

Now here we go, another hideaway
It's suddenly a way to get by
It shadows me, no more plays to play
And suddenly, we got a lead

So much better open now, wanna finally hit the ground
So much better open now, wanna finally hit the ground

Momma weep, nothing personal but everyone wants to be
Of the flash ring without us taking a peak
When they say things wrong, correct them all and they will see
It's you and me

We gotta move on up my dear, and through the door away from thi
s prize
Our shadows know of nothing, page us here
One at a time, it's bothering me

So much better open now, wanna finally hit the ground
So much better open now, wanna finally hit the ground

Momma weep, nothing personal but everyone wants to be
Of the flash ring without us taking a peak
When they say things wrong, correct them all and they will see
It's you and me

Your fingertips are heading for my remarkable and Damien behavi
or
The jury's in but they don't know that what's beautiful is quit
e ordinary
And it'll leave you wanting more
Leave you wanting

So much better open now, wanna finally hit the ground
So much better open now, wanna finally hit the ground

Momma weep, nothing personal but everyone wants to be
Of the flash ring without us taking a peak
When they say things wrong, correct them all and they will see
It's you and me
