

## New Wave

Silversun Pickups

As the wave grew  
To replace you  
And the wait goes on and on  
I will face the sun  
To create one  
And erase you

At the curtain call  
I'll embrace the fall  
And await the parting song  
I'll reshape the sound  
Pass the weight around  
And erase you

I will face the sun  
To create one  
And erase you

I will face the sun  
To create one  
And erase you
