

## Pins & Needles

Silversun Pickups

I like friends and I like strangers  
Carved out forms of steamy nature  
Coming on strong but soon or later  
A curtain calls on misbehavior

When you seal it away and you're on your own  
And you brush away the old war zones  
And the music plays for broken bones  
We'll be running again away we go  
Away we go

I like trends and I like heydays  
And being caught in the haze of sleeping late  
But when night time comes, I see you straining  
Through my fingertips, I feel you changing

When you seal it away and you're on your own  
And you brush away the old war zones  
And the music plays for broken bones  
We'll be running again away we go  
Away we go

Leave it alone  
My how you've grown  
Never knew how low  
You could get before zero  
Cling in a way  
That'll drive us insane

Wait 'til you find  
The end of the line

When you seal it away and you're on your own  
And you brush away the old war zones  
And the music plays for broken bones  
We'll be running again away we go

When you seal it away and you're on your own  
And you brush away the old war zones  
And the music plays for broken bones  
We'll be running again away we go  
Away we go
