

# Scared Together

Silversun Pickups

The clock froze around midnight  
I can feel it in the room  
It's gonna be that kind of moon (new moon)  
Hanging onto the spotlight  
Blowing holes in the dark  
It took forever and a day to miss the mark

Clouds rolling over sunlight  
It's no fun for the young  
Can they just at least see someone? (Anyone)  
Thawing out from the frostbite  
Such a feast for the eyes  
May I have this dance before we dry?

You wanna swim with the alligator (yeah yeah yeah)  
Take a seat near the imitator (yeah yeah yeah)  
Is it a year or a minute later? (yeah yeah yeah)  
We're so much better when we're scared together

Crossing off all the highlights  
That are eating at my mind  
It was a beautiful design (redesign)  
Take hold of the rewind  
Fast forward to the end  
When done you've begun to begin again

Free falling in the elevator (yeah yeah yeah)  
An imitation of the instigator (yeah yeah yeah)  
Flowers bloom when it's now or never (yeah yeah yeah)  
We're so much better when we're scared together  
We're so much better when we're scared together

This breathing room, we made it better  
A change so soon, we made it so much better  
A day anew and now or never  
A chance to bloom, better forever  
This breathing room, we made it better  
A change so soon, we made it so much better  
A day anew and now or never  
A chance to bloom, better forever

You wanna swim with the alligator (yeah yeah yeah)  
You wanna swing with the instigator (yeah yeah yeah)  
Is it a year or a minute later? (yeah yeah yeah)  
We're so much better when we're scared together
