

## Stillness (Way Beyond)

Silversun Pickups

I know I've got to see this through  
Unsure if I can pull it off  
It's really going to leave a lasting mark  
I guess that's just what others do

I know it's time to turn it on  
Cut all the cords and take this walk  
It started so fictional  
A promise to be physical  
And now I cannot keep this calm

But still  
This goes way beyond a little chill  
It'll shake us all  
So still  
This goes way beyond

If only I can make this change  
I'd rather wait another day  
Time it seems is not my friend  
No other way this will end  
At least it's going to feel so good

But still  
This goes way beyond a little chill  
It'll save us all with little thrills  
Before it takes us all  
So still  
This goes way beyond
