

Straw Man

Silversun Pickups

Look, I think it's moving, and I'm so glad for you
Listen, something's beating, and oh, my stars, it's true

It's true, this point of view
For you, straw man, will do

Look, we got a live one, and I'm so mad
I'll head him to the corner and it can dance with you

It's true, this point of view
For you, straw man, will do

A change, from ball, looks like you've got it all
A change, from ball, you drew the longest straw
A change, from ball, looks like you've got it all
A change, from ball, you drew the longest straw

It's true, this point of view
For you, straw man, will do
It's true, this point of view
For you, straw man, will do

For you, straw man, will do
