

Anthem

SiM

Yo, this is MAN from SIM talkin' to the world
We're SIM, the reggae punk from Japan
This is original, the musical revolution

Dreams are broken
Screams are forsaken
The only thing we heal this pain ?
Change yourself to change the world
Stand tall to break the chains
So, stay close to me

I'll take your hands
I'll take your hands
I'll take your hands
I'll take your hands
This one for you and me
This is our new ANTHEM

Everyday, go to school
Get 100 marks, is it cool ?
Peoples are tied down by the rules
I and I gotta fight against the Babylon day and night
This is the confidential propaganda
We don't need words, just action and the soul
Stay close to me

I'll take your hands
I'll take your hands
I'll take your hands
I'll take your hands
This one for you and me
This is our new ANTHEM
