

Blah Blah Blah

SiM

Oh na na na, oh na na na na
Blah blah fucking blah blah
Heres comes the pain

Try to bring me down
With your wild imagination
You can't even be the one of my ennemies
Ignorant hothead
It's a misspelling
What the fuck is "Fack You" ?

Oh na na na
It's just a virtual conversation
Oh na na na
But it's the healing of your nation
Oh na na na,
Imitation of imitation
Oh, blah blah blah
Oh na na na, oh na na na na
Graphics and keys are all in my head
Oh na na na, oh na na na na
Let every words out of your head
Don't be a dead in your lifetime
Our life ain't lighter than a dime
Ah, hit the keys with a empty mind
Nothing comes from nothing

Leave a flood of information and trust your intuition
Internet space of four dimension
Creates an illusion

Oh na na na
But it's the healing of your nation
Oh na na na
Imitation of imitation
Oh, blah blah blah
Oh na na na, oh na na na na
Graphics and keys are all in my head
Oh na na na, oh na na na na
Let every words out of your head
Don't be a dead in your lifetime
Our life ain't lighter than a dime
Ah, hit the keys with a empty mind
Nothing comes from nothing

Get down, they never see us,
It's not the same as being under pressure
Some of them call it doom
Some of them call it bloom
I gotta go where no one knows
Graphics are all in my head
Let the words out of your head

Oh na na na
It's just a virtual conversation
Oh na na na
But it's the healing of your nation

Oh na na na,
Imitation of imitation
Oh, blah blah blah
Oh na na na, oh na na na na
Graphics and keys are all in my head
Oh na na na, oh na na na na
Let every words out of your head
Don't be a dead in your lifetime
Our life ain't lighter than a dime
Ah, hit the keys with a empty mind
Nothing comes from nothing
Do something to free yourself
Stop wasting your time
TICK, TICK TACK
