

# CHAMPiONS

SiM

We are the champions, we are the champions  
We know we'll live to play another game  
We'll be the champions  
See you in Hell

(La-pum-pum-pum)  
Sound of gunshots coming through a wall (La-pum-pum-pum)  
I'm lonely deep inside (La-pum-pum-pum), we're all focusing on our roles (La-pum-pum-pum)  
I know it's not too late to take the first place  
And no way I'll dig my own grave  
Fight, win and control the game  
Time to change my fate

Give me everything you've got  
I'll be the one to taste your blood

Fire up devotion, bullets in motion  
La-pum-pum-pum, la-pum-pum-pum  
Rest in silence  
Fire up devotion, with all my devotion  
See you in Hell

See you in Hell

I'm pretty sure someone's targeting me  
I found myself surrounded by enemies  
We'll lose a game here in theory  
But look at me babe, I'm still full of energy  
Can't get any ideas concrete  
What's more, nowhere to retreat  
Just fight and win like we aimed for  
Not afraid to change my fate

Fire up devotion, bullets in motion  
La-pum-pum-pum, la-pum-pum-pum  
Rest in silence  
Fire up devotion, with all my devotion  
See you in Hell

"My ultimate is ready, let the experiment begin"  
Take a deep breath  
I'm opening the sky

Don't wake me up  
I still want to live in this nightmare  
Don't wake me up, don't wake me up

Fire up devotion, bullets in motion  
La-pum-pum-pum, la-pum-pum-pum  
Rest in silence  
Fire up devotion, with all my devotion  
See you in Hell  
See you in Hell

We are the champions, we are the champions  
We know we'll live to play another game

We'll be the champions
