

# HiDE and SEEK

SiM

Nothing can force me to love you  
I'm sick of you, I knew this to be true  
Are you still wondering why the sky is blue?  
No time to think about things like that  
Grab a pen and microphone to fight back  
Float like a butterfly, sting like a bee  
On this wicked track, come now

Ready or not, here I come  
Boom biddy bye bye bye

I'll be your nightmare  
Come on, tear me down, down, down  
Why should I care?  
It's always ups and downs (down, down)  
Just get up, stand up  
Show me what you got  
Here I come, ready or not

Like oil and water, peace and disorder  
We're not friends, just know each other  
Don't bother me, I won't play those games together  
Whether the weather be nice or bad  
Step back, step back! When I'm so mad  
You can call anybody but your mom and dad  
As a parent, you shouldn't make them sad

Ready or not, here I come  
Boom biddy bye bye bye

I'll be your nightmare  
Come on, tear me down, down, down  
Why should I care?  
It's always ups and downs (down, down)  
Just get up, stand up  
Show me what you got  
Here I come, ready or not

Countless times I tried and failed  
Cried all through the night  
So you better try me

I'll be your nightmare  
Come on, tear me down, down, down  
Why should I care?  
It's always ups and downs (down, down)  
Just get up, stand up  
Show me what you got  
Here I come, ready or not

Ready or not, here I come  
Boom biddy bye bye bye
