

## On And On

SiM

Let's talk about your tiny worry  
Just like a boring class  
We're all out of gas  
It's too late to run!  
There's no turning back  
(Watch out !) It keeps coming back  
Who can stop it?  
Even if I kill myself  
It goes on and on and on  
Oh yeah, oh yeah face forward because  
It will go  
On and on, on and on  
Yeah, face it to break out

You have to look at your face  
(You're suck in the rat race!)  
What you need is mental strength to overcome yourself  
It's to late to run!  
There's no turning back  
(Watch out !) It keeps coming back  
Who can stop it?  
Even if I kill myself  
It goes on and on and on  
Oh yeah, oh yeah face forward 'cuz  
It will go  
On and on, on and on  
Yeah, face it to break out

Even if it goes  
On and on, on and on  
Stand up and finger till the day we die  
Face forward even if it goes  
On and on, on and on  
Yeah, face it to break out
