

Let me see the light to make me feel alright  
Give me some to break  
Power corporation or god's creation  
Everything is up to your final decision

Everyone is bold at the beginning  
But time let'em start to look for empty meaning  
Do it again and again and again  
Until the end of same old refrain

Cast a spell on me to change my roll  
Give me X-potion I gotta break this walls  
Cast a spell on me not that clay doll  
I just wanna be the one who knows everything

Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know the rules  
You're just one of the tools

If Behemoth gives ya chance to remember  
Will you change your mind just before December?  
Iris doesn't smile to only majority  
Don't call number "authority"  
Boys & girls, you must realize  
Unfortunately you're living in a real-life  
No spells, no dragons and monsters  
You can't even go against your master

Cast a spell on me to change my roll  
Give me X-potion I gotta break this walls  
Cast a spell on me not that clay doll  
I just wanna be the one who knows everything

Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know the rules  
You're just one of the tools

Stay controlled, stay controlled, bitch  
No cheats in this real-life  
We can bleed to feel alive  
We can breathe to feel alive  
Don't say that any more

"Cast a spell on me to change my roll  
Give me X-potion I gotta break this walls  
Cast a spell on me not that clay doll  
I just wanna be the one who knows everything"

Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know what are rules  
Under mi shoes you're gonna know the rules  
You're just one of the tools
