

Smoke in the Sky

SiM

Like smoke in the sky
I'm walking along the street without any destination
Like smoke in the sky

Baby you should get ready for the end of fantasy
Your friends become your enemy
Do you like this melody?

Take a leap, take a leap, take a leap of faith
Take a tip, because I see tears running down on your face
Our life is not a game to earn fame and gain
Most people can't help dancing in the flame, oh na

Live free and die free
Don't be so greedy
If you had it all, does it make you feel irie?

Break from the norm, have a brainstorm
What are you waiting for?
Don't you want to see it more? ooh, ah ah
Break from the norm, have a brainstorm
Don't give a shit about haters
Is there something greater than yourself? Ooh

Like smoke in the sky
I'm rising up higher than high

Like smoke in the sky
I'm rising up higher than high

Baby why you're so lazy? it's raining outside
Lord, lord, lord, lord...
Lord, I'm thirsty, please give me water
Why don't you stop all the needless slaughter?
Tell your daughter
"Your skirt is covered with dirt
But T-shirt is still clean
So go cross the desert"

Live free and die free
Don't be so greedy
If you had it all, does it make you feel irie?

Break from the norm, have a brainstorm
What are you waiting for?
Don't you want to see it more? ooh, ah ah
Break from the norm, have a brainstorm
Don't give a shit about haters
Is there something greater than yourself? Ooh, ah ah
Ooh, ah ah, yeah

I'm rising up like smoke in the sky
Nothing is greater than our lives

I will rise
I will rise, rise, rise, rise

Like smoke in the sky, I'm rising up higher than high
Like smoke in the sky, I'm rising up, rising

Break from the norm, have a brainstorm
What are you waiting for?
Don't you want to see it more? ooh, ah ah
Break from the norm, have a brainstorm
Don't give a shit about haters
Is there something greater than yourself? Ooh

I'm smoke in the sky
