

# SUCCUBUS

SiM

Can you feel  
That i love you dearly ?  
Closes your eyes  
To see the clearly  
Explosion of anger and voices  
Come out from inside her

She is a succubus and killing me so slow  
I have never seen her before  
"You know me" she said so  
"No, I don't" I replied  
She is a succubus  
I've never seen before

Please help me before  
I lose stream  
Cover your ears to catch  
My silent screams  
One more time, is not a crime  
Just fuck me throught the night

She is a succubus and killing me so slow  
I have never seen her before  
"You know me" she said so  
"No, I don't" I replied  
She is a succubus  
I've never seen before

I want to feel you inside  
Just fuck me throught the night  
Shut up your mouth and try it

You know me  
I don't know about you  
You know me  
No, I don't  
You know me  
But I feel good

She sucked everything from me  
And I feel asleep

She is a succubus and killing me so slow  
I have never seen her before  
"You know me" she said so  
"No, I don't" I replied  
She is a succubus  
I've never seen before
