SWEET DREAMS

SiM

God

God doesn't play dice with the universe
Do or die or pray, wow oh
Imagine that everything goes in reverse
Do or die, or pray, wow oh

Did you get it? don't you forget it?
Don't bother me when I'm trying to wind spaghetti
2020 was a huge nightmare
Just like being killed by Freddy

Don't look away from things you took away
We'll be watching you

I'll say good night (eh la eh la eh)
Means good bye (eh la eh la eh)
No need to cry... just say good night

God doesn't play dice with the universe
Do or die or pray, wow oh
Imagine that everything goes in reverse
Do or die, or pray, wow oh

I'm very ready to bury his body
It's so heavy like capital levy tho
Chop! Chop! Chop into pieces
Piece by piece, bury them random places
It looks odd from your vantage point
Make a move, shut up and roll a joint
Live fast, smoke it deep, oh yeah

I'll say good night (eh la eh la eh)
Means good bye (eh la eh la eh)
No need to cry... just say good night
Good bye (eh la eh la eh)
Good bye (eh la eh la eh)
No need to cry... just say good night

See you in a dream

I can see what you can't see
I can hear that you can't hear
I can feel what you can't feel
Do or die, or pray

God doesn't play dice with the universe
Do or die or pray, wow oh
Imagine that everything goes in reverse
Do or die, or pray, wow oh

Don't look away from things you took away
We'll be watching you

I'll say good night (eh la eh la eh)
Means good bye (eh la eh la eh)
No need to cry... just say good night

Good bye (eh la eh la eh)
Good bye (eh la eh la eh)
No need to cry... just say good night
