

WHO'S NEXT

SIM

You are dead already

After an idiot vanished, an alien arrived
After he flew away, a can gets empty,
There's no way to survive
When everything was piled up,
Mr. BIG hid in a box instead a loach came out
What a beautiful country, there is no doubt

Wait, oh wait ! Can't you keep your promises
No way ! Cut your throat with your own hands
Is the Diet a sushi-go-round?
Who's fucking next? I didn't order it...

Here's another problem
Important thing is to understand various aspects of this land
But he has a one track mind
The only thing he can do is pray to the Divine
Brainwashed people lost their judgment
It's not a kind of movement
When he says "it's black" (black!) "no, it's white" (white!)
The blind shepherd leads them to a crumbling basement

Ah-ah, start small, before we pass away
Ah-ah, Rome wasn't built in a day
...return to the topic

Wait, oh wait ! Can't you keep your promises
No way ! Cut your throat with your own hands
Is the Diet a sushi-go-round?
Who's fucking next?
Wait, oh wait! I don't know who to trust
No way ! I don't wanna be killed in the blast
We don't want a hero
Bring us someone who we can trust

Who's the fucking next one?

Who made it like a sushi go round?
Who made it like a sushi go round?
We are not monkey in a zoo
There are so many pills never be swallowed
You don' know yet that your vision is narrow
Someone tries to shoot you with a bow and arrow
Now we gotta think more about tomorrow
(Because you're dead already!)

Who is the next one?
Who's gonna be the victim?
You gotta let us choose one

The Diet is not a place to take a nap
Our dying nation is watching you
The Diet is not a place to take a nap
We're dying, we're dying

Wait, oh wait! Can't you keep your promises

No way! Cut your throat with your own hands
Is the Diet a sushi-go-round?
Who's fucking next?
Wait, oh wait! I don't know who to trust
No way ! I don't wanna be killed in the blast
We don't want a hero
Bring us someone who we can trust

Who's the fucking next one?
