

Charlie

Simi

I've been trying
To write you a song for years
But I'm not sure what to say
Can't stop crying
Although you been gone for years
I wish that you could have stayed
See, I walked down the aisle just the other day
But you weren't there to walk me
I'm not mad though I take that back I'm furious
I didn't take my chance to
Tell you goodbye and I love you
Ooh, I love you

Too many merry Christmases
Many happy birthdays
That you have missed
I think about all things that could've been
Cheers to the future what you no see
I want to make you proud
I hope you're in heaven smiling down
Say hello to the angels now
I'm still your angel now

Charlie, if I could see your face
One more day you're mine, Charlie
So many things I want to say
Like I miss you, I won't forget you and
This love will last
This love will last forever
