

Gimme Something

Simi

Oh, oh, oh, oh, oh-oh-oh
Can you see me now?
Lou-lou-louddaa

I know that I said that I got over you
But that was back in October
But now I want to be all over you
I miss you everytime I'm sober
I know what you do when it's 4pm
Chilling in your room, yes I'm confident
Anytime I come through
Baby jọ shilẹkun

Gimme something
Wey dey tingilate
Something
Really intimate
Call me, we can misbehave
Come quick baby don't be late
Oh something
You can instigate
Something put a smile on my face
Something wey dey burst my brain
Something good, something nice, something oh

Give me some
Give me something oh
Give me some
Give me something oh
Give me some
Give me something oh
Give me some

One time for love wey choke oh
Love wey make me wan go loko oh
You enter my eye no go give me Apollo
Wetin you give me chop?
Baby I don't know
And I don't want to
Where you dey go, I wanna come too
You know it's you I want to run to
Anytime I come through
Baby jọ shilẹkun

Gimme something
Wey dey tingilate
Something
Really intimate
Call me, we can misbehave
Come quick baby don't be late
Oh something
You can instigate
Something put a smile on my face
Something wey dey burst my brain
Something good, something nice, something oh

Give me some

Give me something oh
Give me some
Give me something oh
Give me some
Give me something oh
Give me some

That thing wey you do to me
That love wey you showed to me
That touch wey dey tickle me
That day you were missing me
That time you were kissing me
Oh baby
Sho me f'ife bo mi?
Emi ko le shey t'elomi
Give me all your love la to ni
Give me something
