

TRIGGERED

Simi

Word on the street is that you tryna play me
I look away, you call another baby
You pull the trigger, trigger
And I'm triggered, triggered now
I'll take you where you tryna take me
Word on the street you got another lady
Or maybe more it don't matter, baby
'Cause now I'm triggered, triggered
Go fucking figure, figure it out

Psych, boy you weren't worth the hype
Chai, I fucking wasted my time
I dropped it all for you
You dropped it all on me
I was a fool for you
Until it dawned on me, yeah

What's a girl gonna do
If her man act a fool
E no break my heart o
It did not come apart
You made it ice cold
This love is bipolar
Ice cold
This love is bipolar

Word on the street is that you tryna play me
I look away, you call another baby
You pull the trigger, trigger
And I'm triggered, triggered now

Triggered running now
Running out of town
I don't know what to think of it anymore
You don't know how to trust me
'Cause you had enough
Shoot me down but I try to do you right for sure
Been around, been around the city I know
It's a different life I'm a better man
And things that I do
I'll do it for you
Girl let me show you
Realest it could be
And I'm playing no games oh

Word on the street is that you tryna play me
I look away, you call another baby
You pull the trigger, trigger
And I'm triggered, triggered now

Word on the street is that you don't deserve me
You do me dirt, steady tryna hurt me
And now I'm triggered, triggered
Go fucking figure, figure it out
