

I Got This Down

Simian Mobile Disco

I got this down right
I got this all tight

I got this down right
You got no place to hide
All night

I got this down right
I got this all tight
All night

I got this down right
You got no place to hide

I got this down right
I got this all tight

I got this down right
You got no place to hide
All night

I got this down right
I got this all tight
Bring it on
Wanna see what you're looking at me
You wannabe
All night

I got this down right
You got no place to hide
Watch me what you looking at me
You wannabe
Dance all night

I got this down right
I got this all tight

I got this down right
So all night
All night

I got this down right
I got this all tight

I got this down right
So all night
All night
