

# Showdown

Carly Simon

Got to have a showdown  
Got to find you before I leave this town  
Got to have a show  
Showdown tonight

Don't leave me broken hearted  
Half way started  
That's no way to go

You know I don't want no hellos  
With innuendos  
This time you can't say no

Got to have a showdown  
Before I leave this town  
Have a show  
Showdown tonight

Don't mean no Mexican standoff  
Don't mean no messing around  
Open your jacket and keep your hands off  
See who's standing up  
When the smoke dies down

Don't leave me with a big crush  
Holding a straight flush  
Tapped out  
High and low

Got to have a showdown  
Got to find you before I leave this town  
Show  
Showdown tonight

Got to have a showdown  
Before I leave this town  
A show  
Showdown tonight

Well, I've got to have a showdown  
Well, we've got to have a showdown  
Got to have a showdown  
Tonight

Well, we've got to have a showdown  
Well, we've got to have a showdown  
Have a show  
Showdown tonight

(You mean, right now?  
Right here?)

Got to have a showdown...
