

# Everything Can Change

Simon Curtis

Do do do do do do  
There's no easy way to figure out  
Why everything we planned gets turned around  
Nothing accidental, got it down to a "T"  
So why do things never end the way you think there gonna be  
If all is for sure is that no one knows that don't be too quick  
to decide  
Cause everything can change when you least expect it  
Can't stop what you can't control  
Gotta learn how to just let go  
Everything can change  
No, you can't perfect it  
Some things you can't explain  
Yeah!  
Ooooooooooooooooooooo  
Do do do do do do do  
Ooooooooooooooooooooo  
There's no easy way to plan ahead  
Can't wait to get there, but we end up here instead  
Anything can happen due to what it does  
Somethings turned out much better the way it is with us  
If all is for sure is that no one knows that don't be too quick  
to decide  
Cause everything can change when you least expect it  
Can't stop what you can't control  
Gotta learn how to just let go  
Everything can (oh!) change  
No you can't perfect it  
Somethings you can't explain  
Everything can change when you least expect it  
Can't stop what you can't control  
Gotta learn how to just let go  
Everything (yeaah) can change  
No, you can't profect it  
Somethings you can't explain  
Everything can change (everything can change)  
Can't stop what you can't control  
Gotta learn how to just let go  
Everything can change, everything can change  
Somethings you can't explain  
Everything can change.
