

Ketamine

Simon Curtis

I wanna love you damn it
But you're evil
La da da da da da
You're such an A-hole
Put me in a K-hole
La da da da da da dah

Don't get me high
Say you want me to party but keep me alone
You keep me low
And I'm starting to think that it's time I let go

You're like ketamine-i-i-ine
So sweet
Taking me down
Dark fantasy-y-y-y
But I think you might be bad for me
All the energy
You take away from me
When I try to let you go
Like ketamine-i-i-ine
So sweet
Taking me down

You're such a demon
Love to hear me screamin'
La da da da da da
But now it's over
Got my Angel Aura
La da da da da da dah

Don't get me high
Say you want me to party but keep me alone
You keep me low
And I'm starting to think that it's time I let go

You're like ketamine-i-i-ine
So sweet
Taking me down
Dark fantasy-y-y-y
But I think you might be bad for me
All the energy
You take away from me
When I try to let you go
Like ketamine-i-i-ine
So sweet
Taking me down

Thinking you're some kind of witch
But you don't know what I am
Thinking you're the shit
But I think you forgot who I am
Thinking you're some kind of witch
But you don't know what I am
Thinking you're the shit
But I think you forgot who I am
Thinking you're some kind of witch

But you don't know what I am
Thinking you're the shit
But I think you forgot who I am
Thinking you're some kind of witch
But you don't know what I am
Thinking you're the shit
But I think you forgot who I am

You're like ketamine-i-i-ine
So sweet
Taking me down
Dark fantasy-y-y-y
But I think you might be bad for me
All the energy
You take away from me
When I try to let you go
Like ketamine-i-i-ine
So sweet
Taking me down
