

# Love

Simon Curtis

So many nights that I wanted  
Time after time and I got it  
I never want anybody  
Just wanna be with a body  
Took everything that I needed  
Fed on the feeling then beat it  
I never want anybody  
Just want to be with a body

You make me wonder if there's more  
With you I feel like there's something more  
You got me feeling some kind  
You got me feeling some kind  
Of way, kind of way  
I've never been so high  
I don't want this feeling  
To fade, fade away

Like I wanna be loved  
Wanna be loved  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)  
I wanna feel love  
Wanna feel love  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)

Coming in, coming in closer  
Like it but I'm not supposed to  
I never want anybody  
Just want to be with a body  
Going a little bit further  
Falling a little bit harder  
I never want anybody  
Just want to be with a body

You make me wonder if there's more  
With you I feel like there's something more  
You got me feeling some kind  
You got me feeling some kind  
Of way, kind of way  
I've never been so high  
I don't want this feeling  
To fade, fade away

Like I wanna be loved  
Wanna be loved  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)  
I wanna feel love  
Wanna feel love  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)

You got me feeling some kind  
You got me feeling some kind  
Of way, kind of way

Like I wanna be loved  
Wanna be loved  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)  
I wanna feel love  
Wanna feel love  
Love (Hold me tight just a little bit)  
Love (Hold me tight 'cause I'm feeling it)

Be loved, love  
Feel love, love  
(Hold me tight just a little bit  
Hold me tight 'cause I'm feeling it)  
Be loved, love  
Feel love, love  
(Hold me tight just a little bit  
Hold me tight 'cause I'm feeling it)
