

Return To Sender

Simon Curtis

I found out long ago
The things I need to know
About the things you show
And where it is you go
So tired of feeling the pain
Of finding something to gain
You promised me you would change
But everything is the same

You tried to write my heart again
I'll tell you where you can send it

You thought when you mailed it
That you're gonna nail it
Uh huh (Ooh)
Uh huh
I didn't even read it
Much less did receive it
Uh huh (Ooh)
Uh huh
You thought that all it would take was a letter
Let it return to sender

Why can't you tell me the truth?
Are you incapable too?
Of all the things that you do
The problem lies within you
Seem to have lost your mind
And now to pass the time
You're writing every line
On paper I will decline

You tried to write my heart again
I'll tell you where you can send it

You thought when you mailed it
That you're gonna nail it
Uh huh (Ooh)
Uh huh
I didn't even read it
Much less did receive it
Uh huh (Ooh)
Uh huh
You thought that all it would take was a letter
Let it return to sender

All that really matters to me
Is you're gone
And I'm done
All that really matters to me
Is you're gone
And I'm done

You thought when you mailed it (Sending all my love)
That you're gonna nail it (Sending all my love to you)
Uh huh (Ooh) (To you)
Uh huh (Don't try apologizing)

I didn't even read it (Sending all my love)
(I don't want that)
Much less did receive it (Sending all my love to you)
Uh huh (Ooh)
(Sending you all my love)
Uh huh
You thought that all it would take was a letter
Let it return to sender

You thought when you mailed it (Sending all my love)
That you're gonna nail it (Sending all my love to you)
Uh huh (Ooh) (To you)
Uh huh (You tell uh huh ghost)
(Sending all my love)
I didn't even read it (Oh)
Much less did receive it (Sending all my love to you)
Uh huh (Ooh)
Uh huh (Sending you all my)
You thought that all it would take was a letter
(Sending all my love)
(Sending all my love to you)
Let it return to sender (To you)

Sending all my love
Sending all my love to you
Sending you all my
