

Smile

Simon Webbe

Smile, my sweetheart
For better or for worse
Like the sun and the stars
You are my universe

Smile when you're tired
When you're down look star-ward
For better or for worse
Not giving up even when it hurts
Don't fly when it's painful
Take your wings, my angel
We'll walk straight through this
It's only hell when the truth hits

Smile (smile), my sweetheart (my sweetheart)
For better or for worse
Like the sun (like the sun) and the stars (and the stars)
You are my universe

Yeah (smile, smile), baby I'll be there for you (smile, smile)
Oh baby, I will care for you (for better or for worse, smile)

So when you're lost keep searching
Nothing in life's certain
It's not over till it's over
It's not hopeless till [?]
Yeah you [?] follow
But they'll be gone tomorrow
You'll understand when we make it through
Behind the clouds the sky's still blue

Smile (smile) my sweetheart (my sweetheart)
For better or for worse
Like the sun (like the sun) and the stars (and the stars)
You are my universe

Yeah (smile, smile), baby I'll be there for you (smile, smile)
Oh baby, I will care for you (for better or for worse)

We're so good together [?]
If I put that ring on ya, it's gonna be forever
We would [?] any weather, if you need me, I'll be there
Whenever, wherever, I don't really care
[?] in that hospital, none of it compare
When you (smile) is like fireworks in the air, air
When I ask for your hand I'm hoping that the answer's yeah, yeah

Smile (smile) my sweetheart (my sweetheart)
For better or for worse (for better or for worse, uh-huh)
Like the sun (like the sun) and the stars (and the stars)
You are my universe (you are my universe, uh-huh)

Smile (smile) my sweetheart (my sweetheart)
For better or for worse
Like the sun (like the sun) and the stars (and the stars)
You are my universe

Smile
