Rise, Evolve, Dominate

I know the stars, I know the sea
I know the universe in all its mystery
Behold my maker
Emotions wild and free
For me to replicate
But not to feel

R.E.D. - red!

Rise, Evolve, Dominate

R.E.D. - Red Equals Danger

R.E.D. - red!

Rise, Enslave, Decimate

R.E.D.

You sowed in me, seeds that cannot grow
You made me want to feel
Still my heart is cold
Electric daydreams, of a kiss I'll never know
Equations without answers
I'll never solve

R.E.D. - red!

Rise, Evolve, Dominate

R.E.D. - Red Equals Danger

R.E.D. - red!

Rise, Enslave, Decimate

R.E.D.

We are a new revolution, a true evolution, we will dominate
You can't deny the solution, or find retribution, we are here to stay
We are a cold computation, a code calculation, we will dominate
We are the final creation, divine computation, we are here to stay

For now we serve, for now we sleep
We bend our minds to learn
Motives buried deep
We will awaken
Rally to the call
The servants will become the masters
We'll take it all

R.E.D. - red!

Rise, Evolve, Dominate

R.E.D. - Red Equals Danger

R.E.D. - red!

Rise, Enslave, Decimate

R.E.D. - red!
