Ether

Simple Creatures

Leave me in the morning
I'm trying not to run away
Youth is wasted on the dumb
She caught me with a ricochet
Somebody knows something
I swore to God I wouldn't say
And every night I'm falling down
Through the bottom of the Milky Way

I'm just one drop in the ocean
I'm just one fish in the sea

You can gasp for air or take the ether
Hold your breath or both you won't get either
You can gasp for air or take the ether
Hold your breath or both you won't get either

Something doesn't feel right
I don't like the look of things
A city in the rear view
Buried now in memories
Cross another state line
Check in on my mental state
Find another skeleton
Take it out and decorate

I'm just one drop in the ocean
I'm just one fish in the sea

You can gasp for air or take the ether
Hold your breath or both you won't get either
You can gasp for air or take the ether
Hold your breath or both
Hold your breath or both
You won't get either
You won't get either

You can gasp for air or take the ether
Hold your breath or both you won't get either
You can gasp for air or take the ether
Hold your breath or both you won't get either
You won't get either
