

## Blindfolded

### Simple Minds

Somewhere out there, darkened cellar  
There's game called "Mystery"  
There is a man, he stands blindfolded, that's his world, you'll  
never see  
Somewhere out there, you'll never see  
Somewhere out there, a girl called Sugar, dreams of bringing he  
r fortune in  
But every night she stands blindfolded, that's the way it's all  
been  
Somewhere out there, you'll never see  
It's somewhere out there, you'll never see

The Saints are singing now, so we'll feel better  
The Saints are looking down, so we must know  
The Saints won't ever get to read this letter  
Because the Saints became blindfolded long ago

Somewhere out there, in the desert  
There's a game called Liberty  
There is a kid, who stands blindfolded, that his world, you'll  
never see  
Somewhere out there, a darkened cellar  
There's game called "Mystery"  
There's a man who stands blindfolded, that's his world, you'll  
never see  
Somewhere out there, you'll never see

The Saints are singing now, so we'll feel better  
The Saints are looking down, so we must know  
The Saints won't ever get to read this letter  
Because the Saints became blindfolded long ago  
The Saints are singing now, so we'll feel better  
The Saints are looking down, so you must know  
The Saints won't ever get to read this letter  
Because the Saints became blindfolded long ago

It's somewhere out there, you'll never see  
It's somewhere out there, you'll never see  
Somewhere out there, you'll never see  
Somewhere out there, Somewhere out there  
You'll never see
