

Direction of the Heart (Taormina 2022)

Simple Minds

If you moving in direction of the heart yeah
Reach onto the center of the soul
Soon you'll get the feeling that you're part of
Something so much greater and control

(Passion) is the word
(Passion) as dark as night
(Passion) open these doors in front of you
(Passion) shut them tight
But what you want and what you need is always something

But time stops, time ends
Heaven descends

If you moving in direction of the heart yeah
Reach onto the center of the soul
Soon you'll get the feeling that you're part of
Something so much greater and control
Love such a condition of the heart yeah
Realise it's more than you can see
And if you fly in the direction of the heart yeah
Chances are you'll finally get some key

Envy is a train crashed into you
Passion likes the flame
The cupid wanted heaven here on earth
And we all want the same

Time stops, time ends
Heaven descends

Moving in direction of the heart yeah
Reach onto the center of the soul
Soon you'll get the feeling that you're part of
Something so much greater and control
Love such a condition of the heart yeah
Realise it's more than you can see
And if you fly in the direction of the heart yeah
Chances are you'll finally get some key

Moving in direction of the heart
Time stops, time ends
Reaching to the center of the soul
Time stops, time ends
Soon you'll get the feeling that you're part
Timer stops, time ends
Something so much greater and control
Time stops, time ends
Moving in direction of the heart
Time stops, time ends
