

For One Night Only

Simple Minds

Oh, every Friday, I hand you the whole thing
I pocket the small change, I hide that I save it
And now it's the weekend, we're stepping and moving
Spending our money, come on, celebrate it

Let's celebrate it
For one night only

First we got several, then comes another
Predictably drunk, caught up in the mayhem
And now it's the weekend, we're spending our money
The greatest appearance, for one night only

For one night only
For one night only

Oh, on a Friday, I hand you the whole thing
I pocket the small change, I hide that I save it
And now it's the weekend, we're stepping and moving
We're spending our money, come on, celebrate it

Let's celebrate it
For one night only

We're standing here right now, we're anticipating
For all of these years and one night only
Stepping and moving, spinning in circles
Returning to you for one night only

For one night only
So let's celebrate it
For one night only
For one night only
