Simple Minds

I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.  
I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.

Comfort me in words that matter  
Please censor to me  
Explanations always matter  
The sense gets in to me  
I've been thinking, contemplating  
Words filter through  
Digging deep I'm excavating  
To see how you view me

I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.  
I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.

Comfort me in tones that matter  
Just give me something  
Apologies and all that chatter  
That's just the wrong thing  
Lets crack this ice on which we're skating

I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.  
I'm Human inside, a hunter in chase.  
I'm an exile, searching for the right place.

I'm Human inside, a hunter in chase.
