

In Dreams

Simple Minds

In dreams, nothing says we're unable
In dreams, forever's never too long
Forever, forever, forever's never too long

I feel it on the west side, it's over there
The freeze hits on the east now, I feel it there
Outside things are hurting, they're closing in
There's no sign of any warning

I feel you and I know what I feel
I feel you and it's something surreal

In dreams, nothing says we're unable
In dreams, nothing ever goes wrong
Only dreams, I find the hope that enables
In dreams, forever's never too long
Forever, forever, forever's never too long

I feel it on the west side, it's over there
The freeze hits on the east now, I feel it there
Outside things are hurting, they're closing in
There's no sign of any warning

I feel you and I know what I feel
I feel you and it's something surreal

In dreams, nothing says we're unable
In dreams, nothing ever goes wrong
Only dreams, I find the hope that enables
In dreams, forever's never too long
Forever, forever, forever's never too long

I know how that feels
Yeah I know how it feels
I still know how it feels
Forever, forever, forever's never too long

Forever, forever, forever's never too long
Forever, forever, forever's never too long
Forever, forever, forever's never too long
Only dreams, I find the hope that enables
Forever, forever, forever's never too long
In dreams, forever's never too long
Forever, forever, forever's never too long
In dreams, nothing says we're unable
Forever, forever, forever's never too long
In dreams...
